ECO TOP SPRAY

BIOLOGICAL LIQUID ACTIVATOR ODOUR ELIMINATOR

PROFESSIONAL USE

CHARACTERISTICS:

Biological liquid activator odour eliminator ready to use for cleaning and deodorizing bathrooms, sanitary fittings, toilets, sinks, tubs, bins, floors, pipes, tiles, fabrics and carpets. It is an innovative cleaning system which is based on the use of special non-pathogenic selected microorganisms, which provide their food from grease and organic material and are able to effectively and constantly clean surfaces, drains and pipes. The bioactive microorganisms demolish fat deposits and dirt, producing enzymes that help the degradation of organic substances and, multiplying in the pipes and drains, keeping them constantly clean and ensure the proper functioning. As the grease and organic matter are the ground for the development of bacteria, biotechnology products allow you to destroy odours because it eliminates the cause directly.

APPLICATION SURFACES:

Toilets, urinals, fabrics, carpets, bins, environments in general.

INCOMPATIBILITY:

None.

TIPS:

Store in a cool, dry place at temperatures between +5 ° and +23 ° C. Avoid prolonged exposure to temperatures above 40 ° C. Do not transfer the product from the original packaging. Do not mix with other products in particular with chlorine or disinfectants which could neutralize microorganisms.

METHOD OF USE:

• General cleaning - Toilet facilities : Squirt the product on the surfaces (toilets, sinks, urinals, sanitary ware etc..). Wait before rinsing or flushing. - Floors and large surfaces: dilute in water (ratio product/water 1:10) for the cleaning of floors, showers, tiled surfaces, etc..

- Carpets, Moquette: Apply as common shampoo for deep cleaning using the proper equipment use as a shampoo with the advised equipment.

• stain remove action: Carpets, moquette, fabric : Use pure , on encrusted stains , then rinse with warm water and a sponge. Repeat the application several times and keep the surface moist until disappearance of the stain.

• Anti odour action: Spray on the surface or into environments a solution diluted in 50% of warm water. Do not rinse.

As microorganisms are very sensitive to chlorine and disinfectants in general, it is important that the use of this biological activator is not preceded or followed by the use of bleach, disinfectants and chemicals.

CHEMICAL- PHYSICAL FEATURES:

ASPECT:	white liquid
ACTIVE MATTER:	8,0 ± 1,0
pH:	7,0 - 9,0
SPECIFIC WEIGHT:	1,00 – 1,00

CHEMICAL COMPOSITION:

The product contains no-pathogen bacteria, nutritious substances and detergents.

Risks phrases and precautionary statements:

H318	Causes serious eye damage.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
EUH208	Contains: Eugenol, Geraniolo, Miscela di 5-cloro-2-metil-2H-isotiazol-3-one; 2-metil-2H-isotiazol-3-one. May produce an allergic reaction.

P264	Wash . . . thoroughly after handling.
P280	Wear protective gloves / protective clothing / eye protection / face protection.
P302+P352	IF ON SKIN: Wash with plenty of soap and water.
P310	Immediately call a POISON CENTER or doctor / physician.
